INDESIGN	**PDF, TIFF, PSD**	

NB. Leave at least 5cm of the edge of the layout free of image.
NB. Text/lines on carpet must be a minimum of 2mm line thickness

COLOUR PROFILE

RGB	**Adobe RGB (1998) - Best Results** **SRGB IEC61966-2.1**	*Our colour book works with this profile*
CMYK	**Coated Fogra39** **Euroscale Coated V2** **Iso Coated v2**	*Files will be converted to Adobe RGB (1998)* *when we have to fit in colours from* *our colourbook!*

WHITE: R:255 G:255 B:255 and for BLACK: R:0 G:0 B:0
Put white colour as white, don't leave it transparent in the file - no transparent colours.
When a Pantone Colour (Pantone Uncoated) has to be printed, we put in the best matching colour from our colour range.
          (Please mention the use of Pantone Colours in your order)
Colours from the colourbook can only be put in when the file is vectorised.
For best matching colours we recommend we print you a 2metre x1metre sample.
- an example of which we can send you by email to show you how to set it up.

RESOLUTION

PHOTOSHOP	**TIFF**	**150dpi**	**at 100%**
ILLUSTRATOR	**AI, EPS, PDF**	**Vector**	**at 100%**

Artwork can be sent at 10% - but it is important that when including
images, the end resolution after enlarging is 150 dpi.
ie. 150dpi at full scale

EXTRA INFORMATION

We are happy to send you an invite to our DropBox when your files are too big to email.
Alternatively you can use another file transfer system.
